PERFECT 2012 can be adapted to most existing time card and attendance systems by selecting a programmed standard card format.

The time recorder is fully automatic after programming. It has automatic summer/winter time change, a calendar with leap year adjustment and programmable column position.

Attractive analogue quartz clock with power reserve and automatic synchronisation.

Print format, card format, bell signal and ribbon colour are simply programmable through the keyboard and LED display.

The two colour-ribbon allows you to highlight registrations outside normal working hours. The ribbon cassette can be changed very easily.

PERFECT 2012 can be delivered in desktop or wall mounted version.

Options

- External signal
- Battery back-up (up to 300 clockings)
- Slave clock operation
- DCF-77 antenna (Central European Time)
